Custom-tailored solutions

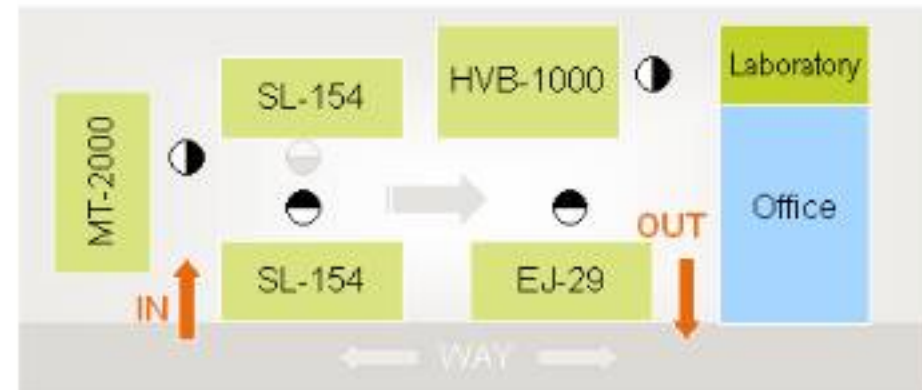

Matrix organisation 3D

Customised production cell

Configuration:

- Mori Seiki MT-2000 – turning machine
- Mori Seiki SL-154 – turning machine
- Junker EJ-29 Silver – grinding machine
- EFD HVB-1000 – HF-hardening

Equipment

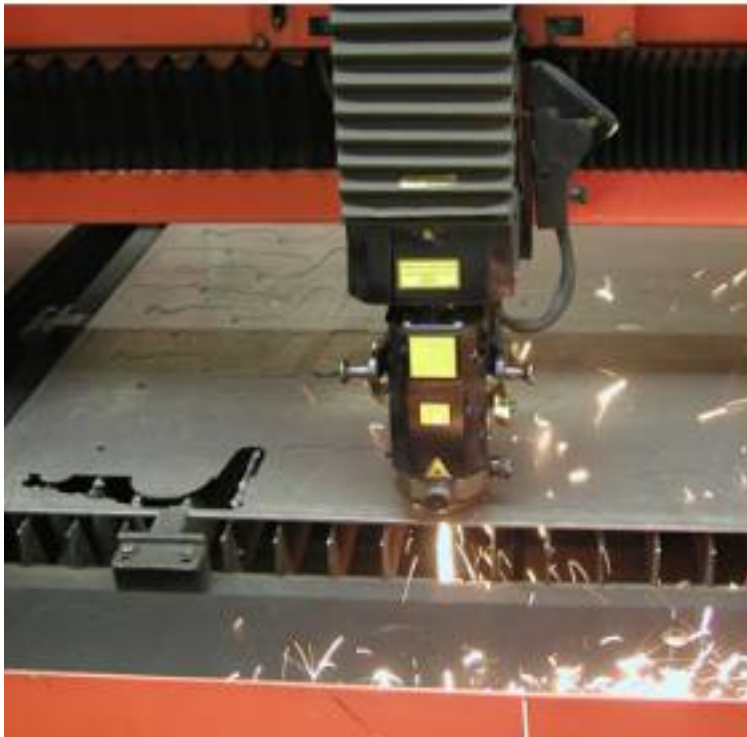

- Machine shop is well equipped with modern Japanese machining and turning centres

Equipment

- Workshop equipped for sheet-metal laser cutting, bending and welding in protective atmosphere

Equipment

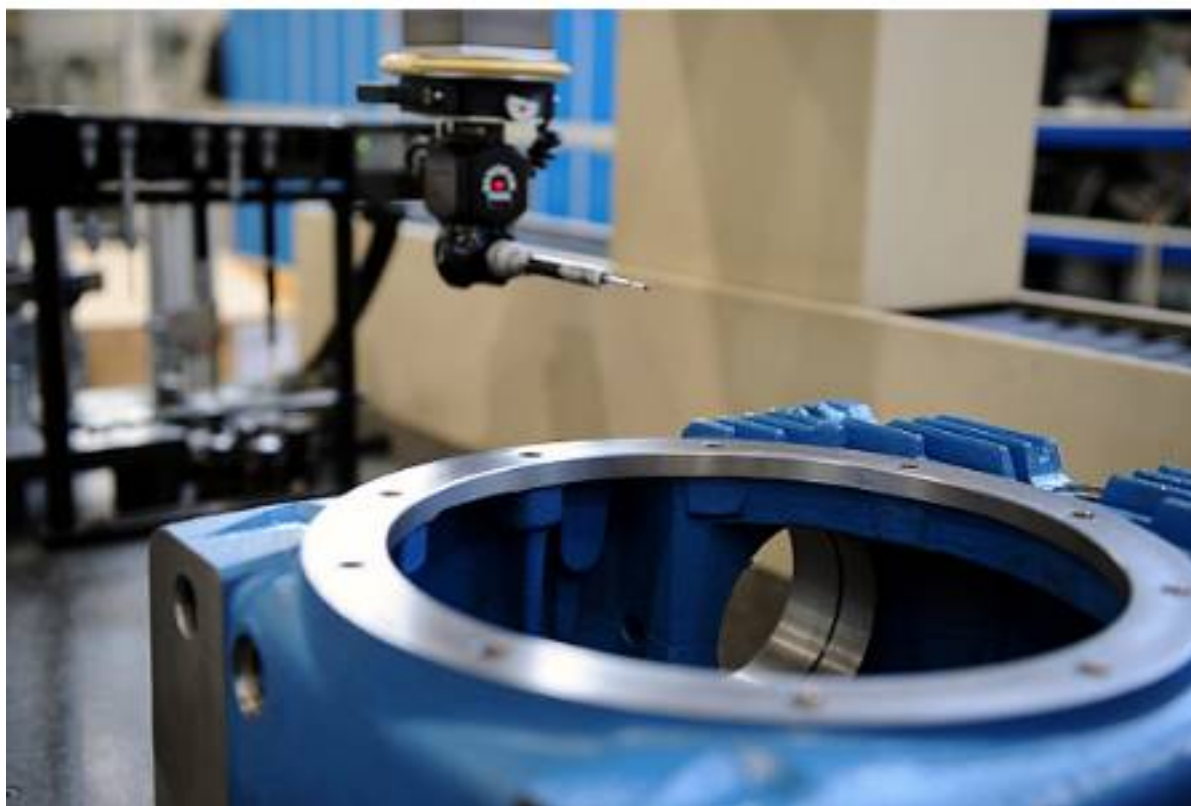

- Wet painting and powder coating plant
- Colours RAL

Equipment

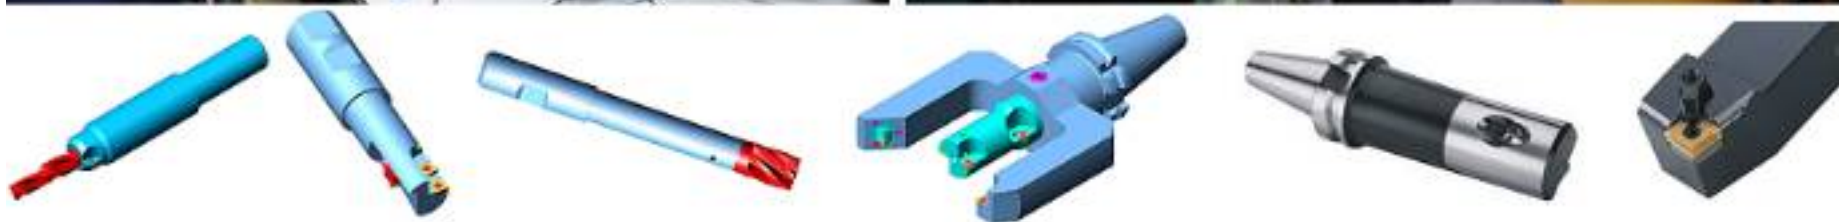

- Hi-Tech Japanese control and measuring equipment

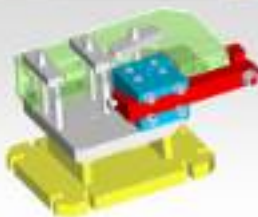

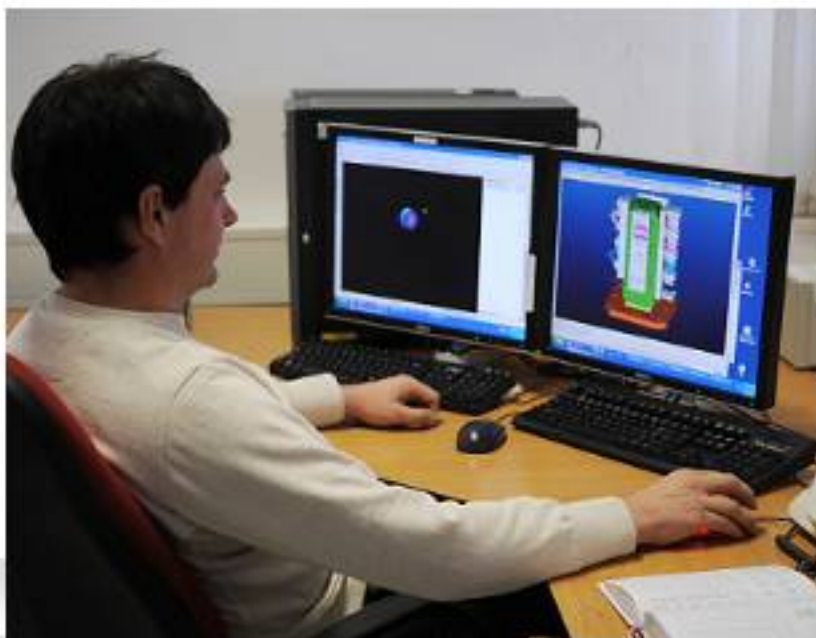

Tooling

- Pre-settings tools
- Production of special tools

Tooling

- Assembling of modular clamping systems
- Design and production of clamp jigs

Assembling

- Machines and industrial equipments
- Subassembly
- Electric distributors

We offer you

- Flexibility in solving problems
- Top quality
- Guarantee a delivery time
- Long-term cooperation
- Fair trade relations
- Reasonable price

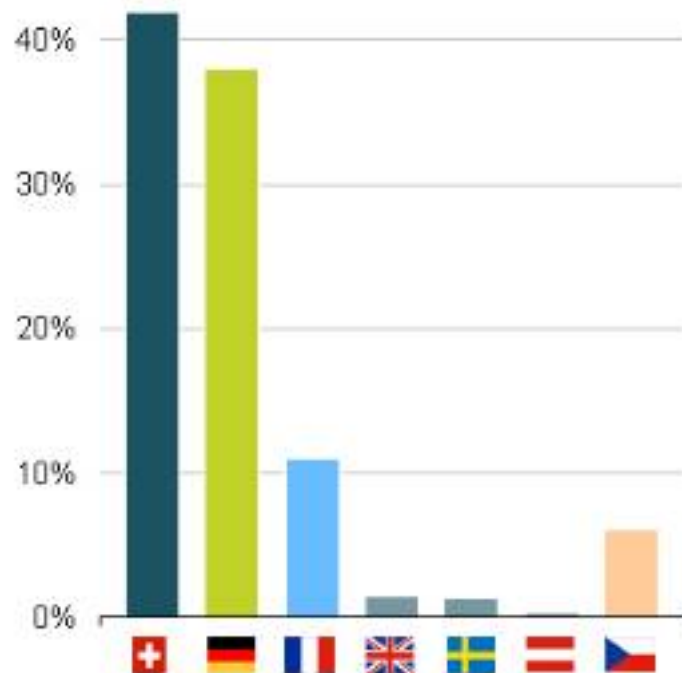

Trading country

Sales (2010) = 23 Mio EUR

Export = 95 %
