

THE RENA-GROUP AT A GLANCE

Parent company	RENA GmbH
Headquarters	Gütenbach / Black Forest
Foundation	1993
Shareholder	Jürgen Gutekunst
General Managers	Jürgen Gutekunst Volker Westermann Stefan A. Baustert
Branch	Machine building industry
Products	Equipment for wet chemical processing
Applications	Etching, cleaning and coating
Customer branches	Solar, Semiconductor, Medical technology and Circuit board technology
Equipment types	Standard equipment with process guarantee and customised systems
Market position	One of the world leading providers
Total output 2010	258 Mio. €
Employees worldwide	> 1,300
Locations Germany	Gütenbach, Gutmadingen/ Bräunlingen, Herrenberg, Berg
Subsidiaries	China, Taiwan, Korea, India, USA
Locations Poland	Wykroty, Lodz
Portfolio Poland	OEM products, assembly groups, instruments, devices, components
Production area Poland	20,000 m ²

FLEXIBILITY BUSINESS ACTIVITIES

EFFICIENCY QUALITY WITH CERTIFICATE

- ISO 9001:2008 certified company
- Constant and high quality of products and services guaranteed
- TÜV SÜD-certified plastic welders
- Continuous improvement process (CIP) Lean Manufacturing (5-S, CIP, SMED, TPM)
- Integral ERP-system
- High delivery reliability, short throughput times and high product acceptance owing to QM

PARTNERSHIP RENA POLAND - THE ASSEMBLY PROFESSIONALS

RENA Poland has, as assembly and component supplier for the German parent company, already ten years production experience according to German quality standards. Based on the core competence manufacture of components, assemblies and basic bodies for the wet process technology, many workflows and assemblies have been optimised to increase throughput and reduce costs. Workflows have been documented continuously, assembly lines and cycled assembly introduced and logistic processes harmonised with production sequences.

"We achieve the maximum customer benefit by permanent production optimisation"

Zbigniew Moskal, CTO RENA Polska

Assembling

- OEM products
- Assembly groups
- Instruments
- Devices
- mechanical
- mechatronics
- metal
- plastic

- Cycled / continuous assembly lines to reduce costs and cycle time
- Flexible assembly from small lots to large-volume production
- Customised assembly lines and workstations

Mechanical plastic processing

- Turning, milling, bending, cutting, etc.
- Certified welding with leak proof

Plastic assembly manufacturing

- Tanks, filters, pumps, etc.

Services

- Production-oriented revision of design drawings
- Experienced and customer-oriented project managers
- Modern warehouse management
- Installation at customer's site
- Worldwide logistics partner

Talk to us and convince yourself of our solutions.

Benefit from our experience for your large-scale and small series production

OUR OFFER

- As a supplier of the RENA GmbH, a leading provider for standard and special equipment, we have experience in large-volume production with multi-shift operations and small lot production.
- Short term takeover of assembling and mounting according to your design specifications
- On request we integrate design, purchase and logistic services, packaging and consignment as well as installation at customer's site into your complete package.

YOUR ADVANTAGES

- 20,000 m² production area at two locations
- 350 highly qualified and motivated employees
- Multi-shift operation feasible
- Company language is German
- Delivery adapted to your cycled mounting
- 10 years production according to German quality standards
- Cost reduction by outsourcing
- Prevention of capacity bottlenecks
