REFERENCE LETTER

To whom it may concern,

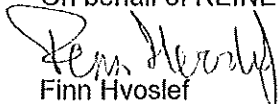

We are giving this recommendation letter in good faith to our supplier Zakład Produkcji Wielobranżowej "PROWAL" as a result of their good performance in delivery of stainless steel balustrade for the "Sjøgangen" bridge on our project in Trondheim (Norway).

PROWAL became a supplier as a result of a competitive offer given to REINERTSEN as well as good impression, technical understanding and experience of the company and people working there.

PROWAL was responsible for production and delivery of stainless steel railway.

The result of cooperation was positive for REINERTSEN and we recommend them as a supplier.

On behalf of REINERTSEN AS,

Finn Hvoslef
Prosjektleder
