

GLOBAL PROCUREMENT MANAGEMENT WITH BEST CONNECTIONS

WE PROCURE INDUSTRY PARTS FROM ASIA AND EUROPE AT BEST
CONDITIONS.

SOLUTION-FOCUSED COUNSELLING, COST-EFFECTIVE PROCUREMENT

mbm GmbH endues long term relationships with various suppliers from Asia and Europe, procuring larger quantities of castings, turned and milled parts as well as other components for you. Our industrial parts and production possibilities are used for instance, in engineering, conveyor technology, plant engineering, in the electronics and construction industries (formwork systems) as well as for utility vehicles.

WE ARE BOTH PROCUREMENT MANAGERS AND PROBLEM SOLVERS.

We are technology experts (or specialists), using our know-how to consult you in a solution-oriented manner on construction processes, individual parts and materials. We enjoy developing innovative solutions for you, solutions that give you access to new possibilities for cost reduction, increased effectiveness and process acceleration. Due to our engineering knowledge and long-term practical experience, we quickly identify the needs of our customers and where and how further optimisation is possible. Challenge us as a problem solver!

WORLDWIDE RELATIONSHIPS AND SOUND TECHNICAL UNDERSTANDING

Benefit from our product range in order to reduce your costs!

Your advantages:

- ✓ **Practice-oriented solution proposals for your use of parts by experienced technology experts**
- ✓ **Cost-effective procurement due to best connections to Asia and Europe**
- ✓ **Long-term experience in global sourcing and project management**
- ✓ **Production customised to match your specifications**
- ✓ **Complete processing including counselling, procurement and stocking**

PROCUREMENT MANAGEMENT

ABOUT US

OUR PRODUCTS FULFIL INDIVIDUAL REQUIREMENTS.

Benefit from our customised solutions by different process technologies:

- ✎ Aluminium and zinc die casting parts
- ✎ Investment casting parts
- ✎ Injection-moulded plastic parts
- ✎ Sheet metal, laser-cut and punched parts
- ✎ Forging parts
- ✎ Cold-extruded parts and connecting elements
- ✎ Turned and milled parts
- ✎ Ball bearings
- ✎ DIN and standard parts

Of course, all products are subject to strict **quality control**.
Thus, we ensure that all parts comply with your requirements.

If required, you may entrust us with all procurement logistics processes including the storage of safety stocks.

OUR SPECIALISATION IS YOUR ADDED VALUE.

Individual production, high product quality.

If required, we customise production parts according to your drawings and specifications. The materials we are working with include steel, stainless steel, aluminium, zinc and plastics. In particular castings, forgings, turned and milled parts, punched, laser-cut, metal sheet, injection-moulded plastic and cold extruded parts are manufactured using these materials. Apart from that, we also produce ball bearings and connecting elements.

Specific surface treatments are also included in our range of services. We cooperate with partner companies using state-of-the-art facilities for the following procedures:

- | | |
|---------------------------|-----------------------|
| ✎ Hardening and tempering | ✎ DACROMET coating |
| ✎ Galvanising | ✎ Zinc nickel coating |
| ✎ Anodisation | ✎ GEOMET coating |
| ✎ Browning | ✎ Powder coating |
| ✎ Chrome | ✎ Sandblasting |
| ✎ Hot-dip galvanising | |

Consult us for information on the possibilities of individual production and get your non-binding offer!

PERSONAL CONTACT IS STILL THE BEST CONNECTION.

We will be happy to answer any questions you may have on our product range and are looking forward to our first personal conversation!
