

DSH Moulds And Precision Machining Co., Ltd

**Development- Services- High Quality
Design- Solutions- High Precision**

Introduction

DSH Moulds And Precision Machining Co., Ltd

Email: info@dshprecision.com

Website: dshprecision.com

Tel: 86-755-33163065

Fax: 86-755-29041031

Address: Changfeng Rd. #408, Guangming District 518107, Shenzhen, China.

DSH Moulds And Precision Machining Co., Ltd

Company info

DSH is founded in 2007 with staffs >200, including 20 experienced employees in R & D team, providing automation solutions for customers.

Main business:

Precision components machining, mold and parts maker; fixtures designed, assembly.

Equipment:

CNC, wire cutting, precision grinding, milling machines and lathes, >100 units.

Our Clients:

Foxconn, Gree etc., Accuton, Mindray etc..

iPhone assembly fixtures

Surface treatment:

Natural anodized, sandblasted, matte.

Assembly:

Al sheet metal parts, POM, standard parts and positioning parts.

The beige POM is easy to deform, but we can do it well.

Automation solutions:

To test the flexibility for finally functions.

Testing fixture

Testing fixture for Phone screen

➤ Applying to all mobile phone screen lighting up testing.

➤ Automated test with high efficiency.

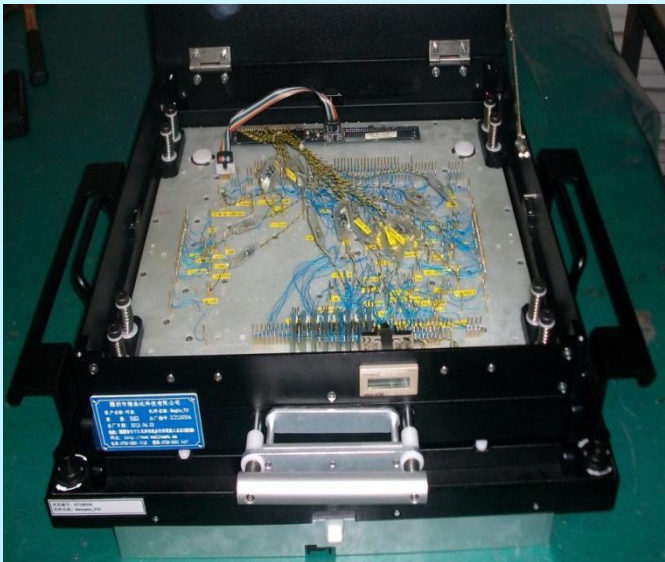

➤ Using for testing the stability of Module POGO PIN.

DSH Moulds And Precision Machining Co., Ltd

Testing fixture

Agilent fixtures

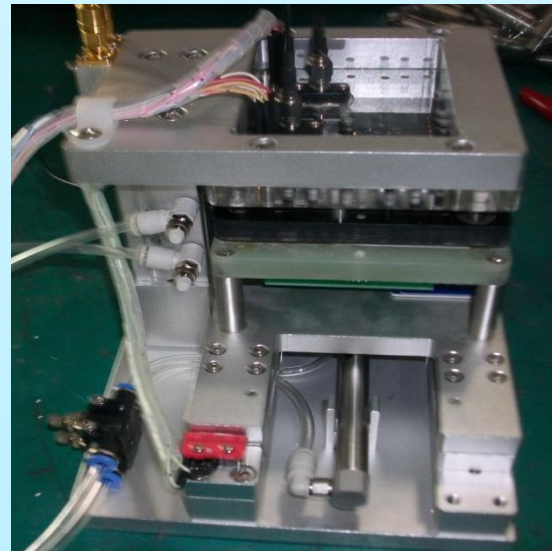

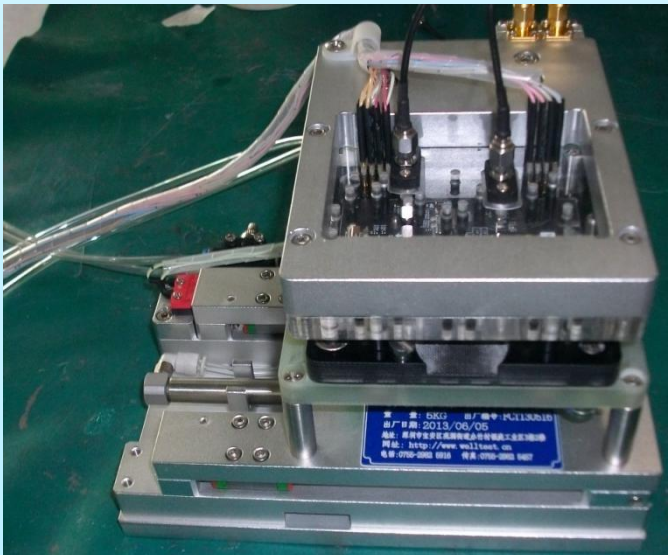

- Safety of structure, with a variety of characteristics: suitable for Agilent 3070 machine
- Braille hole processes, improve the accuracy of the probe.
- Opaque material, suitable for LED color test.

DSH Moulds And Precision Machining Co., Ltd

Testing fixture

Mobile signal shielding testing

- Using for all mobile phone models testing
- For different mobile models, just need to replace the testing carrier board, it can reduce the cost of test.
- All mechanical movements are controlled by the microcontroller. Ensure the safety of the test.

DSH Moulds And Precision Machining Co., Ltd

Auto equipment

Glass disc optical detection and screening machine

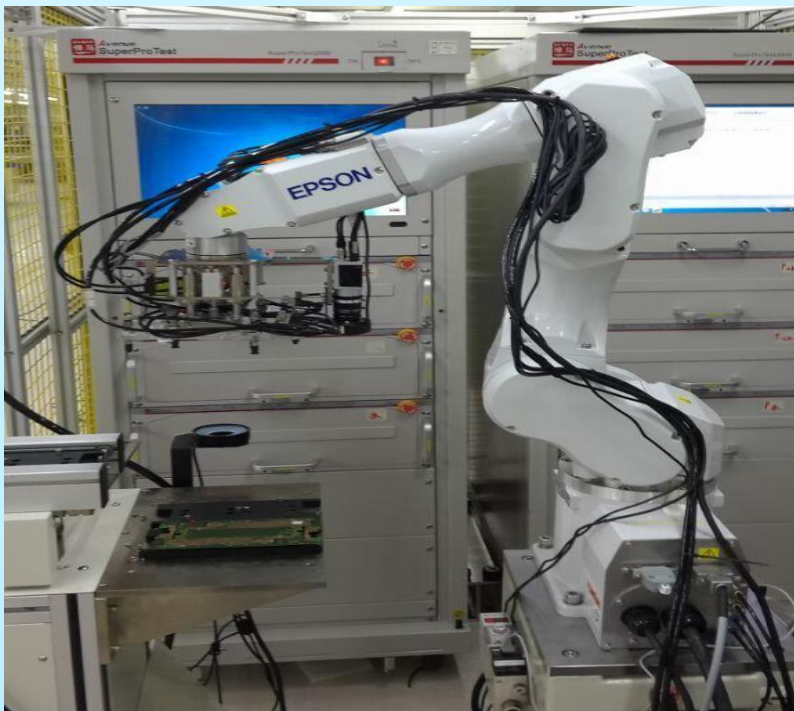

- Equipment No. : HB-MP-G15100
- Operating voltage : 220V, Bar pressure : 0.5 ~ 0.8mpa
- Object: precision hardware parts, injection molded parts, electronic components.
- Note: the object must be steady on the glass plate
