

CINTAS MÉTÁLICAS, S.A.

Was founded in 1986 as a strip cutting center, specializing in semi-finished copper and its alloys, such as brass and bronze.

We are able to work with a broad range of different materials, including Stainless Steel and Aluminium. Our quality and service are widely recognized in the sector.

Since 1992 Cintas Metálicas, S.A. became part of WIELAND WERKE AG in Ulm, Germany.

In 2017, a new department of Engineering and Projects was started, which manufactures parts and components according to customer specifications
