

YOUR TRUSTED PARTNER IN  
**CNC MACHINING**

# YOUR TRUSTED PARTNER IN CNC MACHINING

CNC Solutions is a modern sub-contracting design and manufacturing company of metal components and parts of high precision and complexity.

Since our establishment in 2003, we have been consistently investing in new modern equipment and constantly expanded our infrastructure, with one goal in our mind:

**to become your trusted partner in CNC machining.**

From high-tech 5-axis machine tools and premium CAD/CAM software system (hyperMILL – OPEN MIND), to updated production & control computerized processes (SAP ERP) and specialized hands-on CNC trainings, we have created the conditions

**to offer you complete solutions and services of unparalleled quality.**

We work with a wide range of certified materials such as stainless steel, iron, brass, aluminum, titanium, special steels and industrial plastics.

## R&D DEPARTMENT

Regardless of your business sector and development strategy, our specialized R&D department helps you design and develop new products, from the study and manufacturing of prototypes, up to testing, re-design and production of end pieces.

## QUALITY CONTROL

To ensure the high quality specifications of its clients in Greece and abroad, we have invested in the creation of a fully equipped quality control department.

- Full compliance of final products to requested specifications.
- Measuring control at all pieces one by one.
- High speed at dimensional measurement of final products.
- Maximum precision 2.1µm.
- Full range of high-precision measuring instruments.

# 10 REASONS THEY SELECT US

**01.** Complete high added-value solutions from study and design to production and technical support.

**02.** Specialized R&D department.

**03.** Flexible production from a single piece to complete batches.

**04.** Machining of complex components of 1 - 1000mm.

**05.** Machining of certified materials.

**06.** Online monitoring of production progress.

**07.** Strict quality control in all pieces one by one.

**08.** Absolute consistency and confidentiality.

**09.** In-house modern CNC Training Center.

**10.** Short delivery times.

## QUALITY CONTROL

WE HAVE BEEN SERVING  
A WIDE RANGE OF SECTORS  
IN GREECE AND ABROAD

MODELING

# IN-HOUSE CNC TRAINING CENTER

Technology developments in CNC are growing rapidly creating the imperative need for continuous specialized training.

**Being one of the very few companies worldwide with in-house CNC Training Center**, we give particular emphasis on continuous hands-on technical training of all our personnel, to ensure maximum use of new technologies, materials and productions methods and benefit our clients.

✓ Certified by Haas Automation Inc. – the No.1 manufacturer of CNC machine tools in America and Europe

✓ Member of the global HTEC network (Haas Technical Education Centers)

✓ Trainings certified by TÜV HELLAS (TÜV NORD)
