HOT FORGED SCREWS MADE BY GÜLDNER

OUR PRODUCTION RANGE

- Hexagon head screws acc. to ISO 4014 / ISO 4017 from M6 - M24
- External Torx® acc. to DIN 34801
- Twelve-point screws
- Hexagon socket cap screws acc. to ISO 4762
- Fasteners acc. to customer's drawing

VARIETY OF MATERIALS

- Q & T steels (e.g. 1.7225, 1.7227, 1.6580)
- Stainless steels and acid-resistant steels (e.g. 1.4301, 1.4401, 1.4057, 1.4529)
- High-temperature and extreme high-temperature steels (e.g. 1.7218, 1.7709, 1.4980, 2.4952)
- Heat-resistant steels and nickel alloys (e.g. 1.4828, Incoloy®, Inconel®, Nimonic®75)
- Highly corrosion-resistant nickel materials (e.g. Monel®, Hastelloy®, Nimonic® 80A, 1.4547)

PLENTY OF PROOF OF OUR QUALITY

- TÜV approved manufacturer according to AD2000-Merkblatt W0 / TRD 100 and VdTÜV-Merkblatt 1253-4
- QM system acc. to ISO 9001, Pressure Equipment Directive 2014/68/EC and KTA 1401
- Accredited manufacturer acc. to the regulations of Germanischer Lloyd

On request, we can supply an **inspection test certificate** acc. to **DIN EN 10204, 2.2, 3.1 or 3.2** for our products. Inspection test certificates according to 3.2 can be provided in line with the requirements for **TÜV, GL, BV, LR, RINA** and to customers' specifications or official regulations.

We will be happy to assist you with technical questions and your enquiries:
